

CLIMBTECH LADDERS

A PACT OF QUALITY AND SAFETY

ClimbTech Ladders blends your requirement for safe and durable ladders. With an array of designs built using innovative technologies, we deliver efficiency and quality.

We are a team of young visionaries all set to make India a Global exporter of safe and high-quality aluminium ladders. We are-

Made in India

Made for the World

Your safety is our priority!

Key Products

Aluminium Step Ladders
with/without Tool Tray

Multi-Purpose Ladders

Telescopic Ladders

Straight Ladders

What sets us apart!

Durability- High grade aluminium with 13-16 HV hardness makes our ladders strong and robust.

Safety- High precision, fully automatic Hydro-Pneumatic machines are used to deliver 100% accuracy and safety.

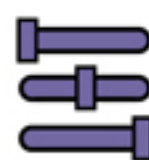

Convenience- Additional tool trays and accessories make the job easier, comfortable and convenient!

Resilient Design- Anodized Aluminium along with CED coated top platform gives long lasting rust free finish.

Scrutiny- Slip test, Durability test, Hinge restraint test and Ladder Level test at every level of production for each product.

Customization- Strong Research and Development team works 24*7 to cater to your specific needs with dynamic and hybrid designs.

Climbtech benefits
